

DataEye Consulting Becomes MSPAlliance Member – The International Association of Managed Service Providers

DataEye Consulting demonstrates commitment to the Managed Services Industry

BUCHAREST, 24TH OF SEPTEMBER – The MSPAlliance (MSPA) the International Association of Managed Service Providers (www.mspalliance.com), today announced that **DataEye Consulting** has become a member of the MSPAlliance. The MSPAlliance is the oldest Managed Services group and the only Accrediting and Standards based body for the Managed Services Industry. With over 9,000 members world-wide, the MSPAlliance is a very powerful and influential global organization, working to promote the managed services industry to the business consumer. MSPAlliance member companies' are able to achieve Green IT Certifications, Disaster Recovery Certifications, and ultimately achieve MSPAlliance Accredited Provider Status.

“The MSP Alliance membership reinforces the devotion that DataEye Consulting has taken to provide the highest level of service and integrity to our customers” said Tudor Pop, DataEye Consulting Managing Director. “We remain committed to delivering high-quality solutions that exceeds the high standards expected from our clients and partners.”

“We are honored to have DataEye Consulting as a member of our association,” said Charles Weaver, MSPAlliance president. “By upholding the Managed Service Provider’s Code of Ethics and high technical standards, DataEye Consulting will help ensure the integrity of our profession.”

About MSPAlliance

The MSPAlliance is a professional association of 9,000 managed service providers and service enabling technology vendors, who work in a collaborative effort to define, promote and educate the Managed Services Industry and the end-user consumer on the adoption and successful use of technology through Managed Services. The MSPAlliance is committed to increasing reliability and dependability in the industry surrounding the value and benefit of using Managed Service Providers to provide a wide range of mission-critical services. In addition, the MSPAlliance collects data on the practice of managed services on behalf of its members, to help them increase the value delivery of IT to the organizations they serve.
